About me – I'm a creative self-taught professional and I build in the Front-end solutions, so users can surf a better web. I design fluid and responsive websites for the future. Let's have a chat!

SKILLS:

Front-End –HTML 5, CSS 3, Pug / Jade, Sass, Less, StencilJS, TypeScript, React, Redux, JavaScript, ES5/ES6/ES7, SEO, WebPack, jQuery, Gulp, OOCSS, Bootstrap, Foundation, PhotoShop

Back-End – Git, NodeJs, Python / Django

OS & Others – Windows (all), Word, Excel, PowerPoint.

EMPLOYMENT:

2018 Jul - *present* Front-end Web Developer - Zappar Ltd.

- Working on Zappar's websites
- On a daily basis, I have been using HTML5, CSS3/Sass, StencilJS, Typescript and JavaScript
- Building new tools for the CMS website.

2017 January - 2018 Jul Junior Web Developer - BitBee Ltd.

- My main responsibility was to build the mobile, tablet and desktop interface for new clients,
- On a daily basis, I have been using HTML5, CSS3 and JavaScript (vanilla or jQuery) to skin the interface,
- Identify problems and tune up front end,
- Set up Git for version control system,
- I'm matching the designs to templates using HTML and CSS
- Create tables, forms, buttons, drop down menu, mega menu for small and big projects

EDUCATION:

2007-2014 Bachelor's degree of Information Technology, University of Dunaújváros, Hungary
